

****DISCLAIMER**** United States Code Title 15, Section 637(A) (12) (C), requires the Department of Defense to prepare a forecast of expected contract opportunities for the next and succeeding fiscal years and make the forecast available to businesses. We fulfill this requirement by publishing this Long Range Acquisition Forecast (LRAF) and updating the information on an ad hoc basis. The LRAF contains requirements from DoD Agencies that are valued at \$150,000 or more that are forecasted for the upcoming and future fiscal years. The forecast is for informational, marketing purposes, and planning purposes only. It does not constitute a specific offer or commitment by the responsible DoD Agency to fund, in whole or in part, the opportunities referenced herein. The Government may or may not release a solicitation for these efforts. Any comments you provide may be considered by the Government for incorporation into a solicitation for public release. This listing is not all inclusive and is subject to change.
